## Bluebird Soft Introduces Pistol Grip Kit for Pidion BIP-7000

The Pistol Grip Kit helps reduce workers' fatigue in scan-intensive environments and delivers broad coverage for both indoor and outdoor applications.

Bluebird Soft Inc. (Bluebird), a global provider of handheld mobile devices, announced today the [Pistol Grip Kit](#) for Pidion [BIP-7000](#) is available for pre-order. This attachable Pistol Grip Kit with comfortable grip shape is designed for workers inside the four walls. It helps maximize enterprise productivity while reducing operators' fatigue even during long work hours and preventing slipping out of hand.

Pidion BIP-7000 industrial handheld computer is designed for scan-intensive environments and single-handed operations. Due to its user-oriented design, BIP-7000 provides reliable performance and industrial class durability. Bluebird is just ready to supply the Pistol Grip Kit for BIP-7000 to the market and it means now this handheld computer is able to perfectly cover the range of both indoor and outdoor applications.

Built for single-handed operation, BIP-7000 frees the other hand, making it easy for workers to do other tasks with it. BIP-7000 has one standard-type enlarged scan key on the front, one scan key on each side and a built-in scan trigger with the finger saddle on the back. Moreover, newly offering Pistol Grip Kit is attachable to BIP-7000's compact and lightweight body. This attachable pistol grip provides users with flexible switch between handheld and pistol grip operation as per users' preference.

Powered by 806MHz CPU, BIP-7000 combines the reliable computing performance and real-time voice and data communication with 802.11 a/b/g radio and GPRS and HSDPA switchable mobile radio. BIP-7000 is CCX certified (Cisco Compatible Extension) and ensures secure data transmission of critical enterprise resources. Wavelink Terminal Emulator which enables remote assessing, managing and maintaining entire populations of devices is ready. It is capable to use in versatile data collection and location-based applications with a 1D laser scanner / 1D long range laser scanner / 2D imager, 3.0 megapixel autofocus camera and GPS.

With its sleek yet [rugged](#) form factor, BIP-7000 is suitable for harsh work environments. It withstands drops from 6ft and meets IP65 sealing, while supporting crack-resistant TouchWindow LCD. The robust body allows the BIP-7000 to resist strong shocks, multiple drops, and freezing and sizzling temperatures. Thanks to its rugged body, BIP-7000 enables saving cost and time incurred by damages of the device.

"Pidion BIP-7000 and its Pistol Grip Kit are our commitment to the requirements of our customers looking for more reliable and reasonable devices that delivers advanced ergonomic design and powerful performance with the latest technologies. Our top priority is to value our customers by identifying their challenges and providing rapid solutions." said, Jangwon Lee, President and CEO of Bluebird Soft Inc..
